

# BACKGROUND

Aquarius Shipping Hamburg GmbH was founded in 1991 in Hamburg, Germany, and has since built a strong reputation for quality brokerage, reliability, and professionalism.

As an independent and competitive shipbroker and consultant, we are a trusted and fair partner to our valued clients and associates worldwide. Strategically positioned between international freight forwarders and leading ship owners, we combine market insight with technical expertise to deliver innovative, tailor-made solutions for even the most complex shipping requirements.

# COMPANY HISTORY

**We arrange worldwide shipments in cooperation with renowned ship owners operating a diverse fleet, including heavy lift vessels, semi-submersibles, single and triple deckers as well as bulk carriers. This wide range of tonnage enables us to provide flexible and efficient transport solutions across global trade routes.**

**A further core strength of our company is project freight forwarding — comprehensive, efficient, and particularly strong in worldwide niche markets, supported by a proven track record. Our forwarding services cover the entire logistics chain, including:**

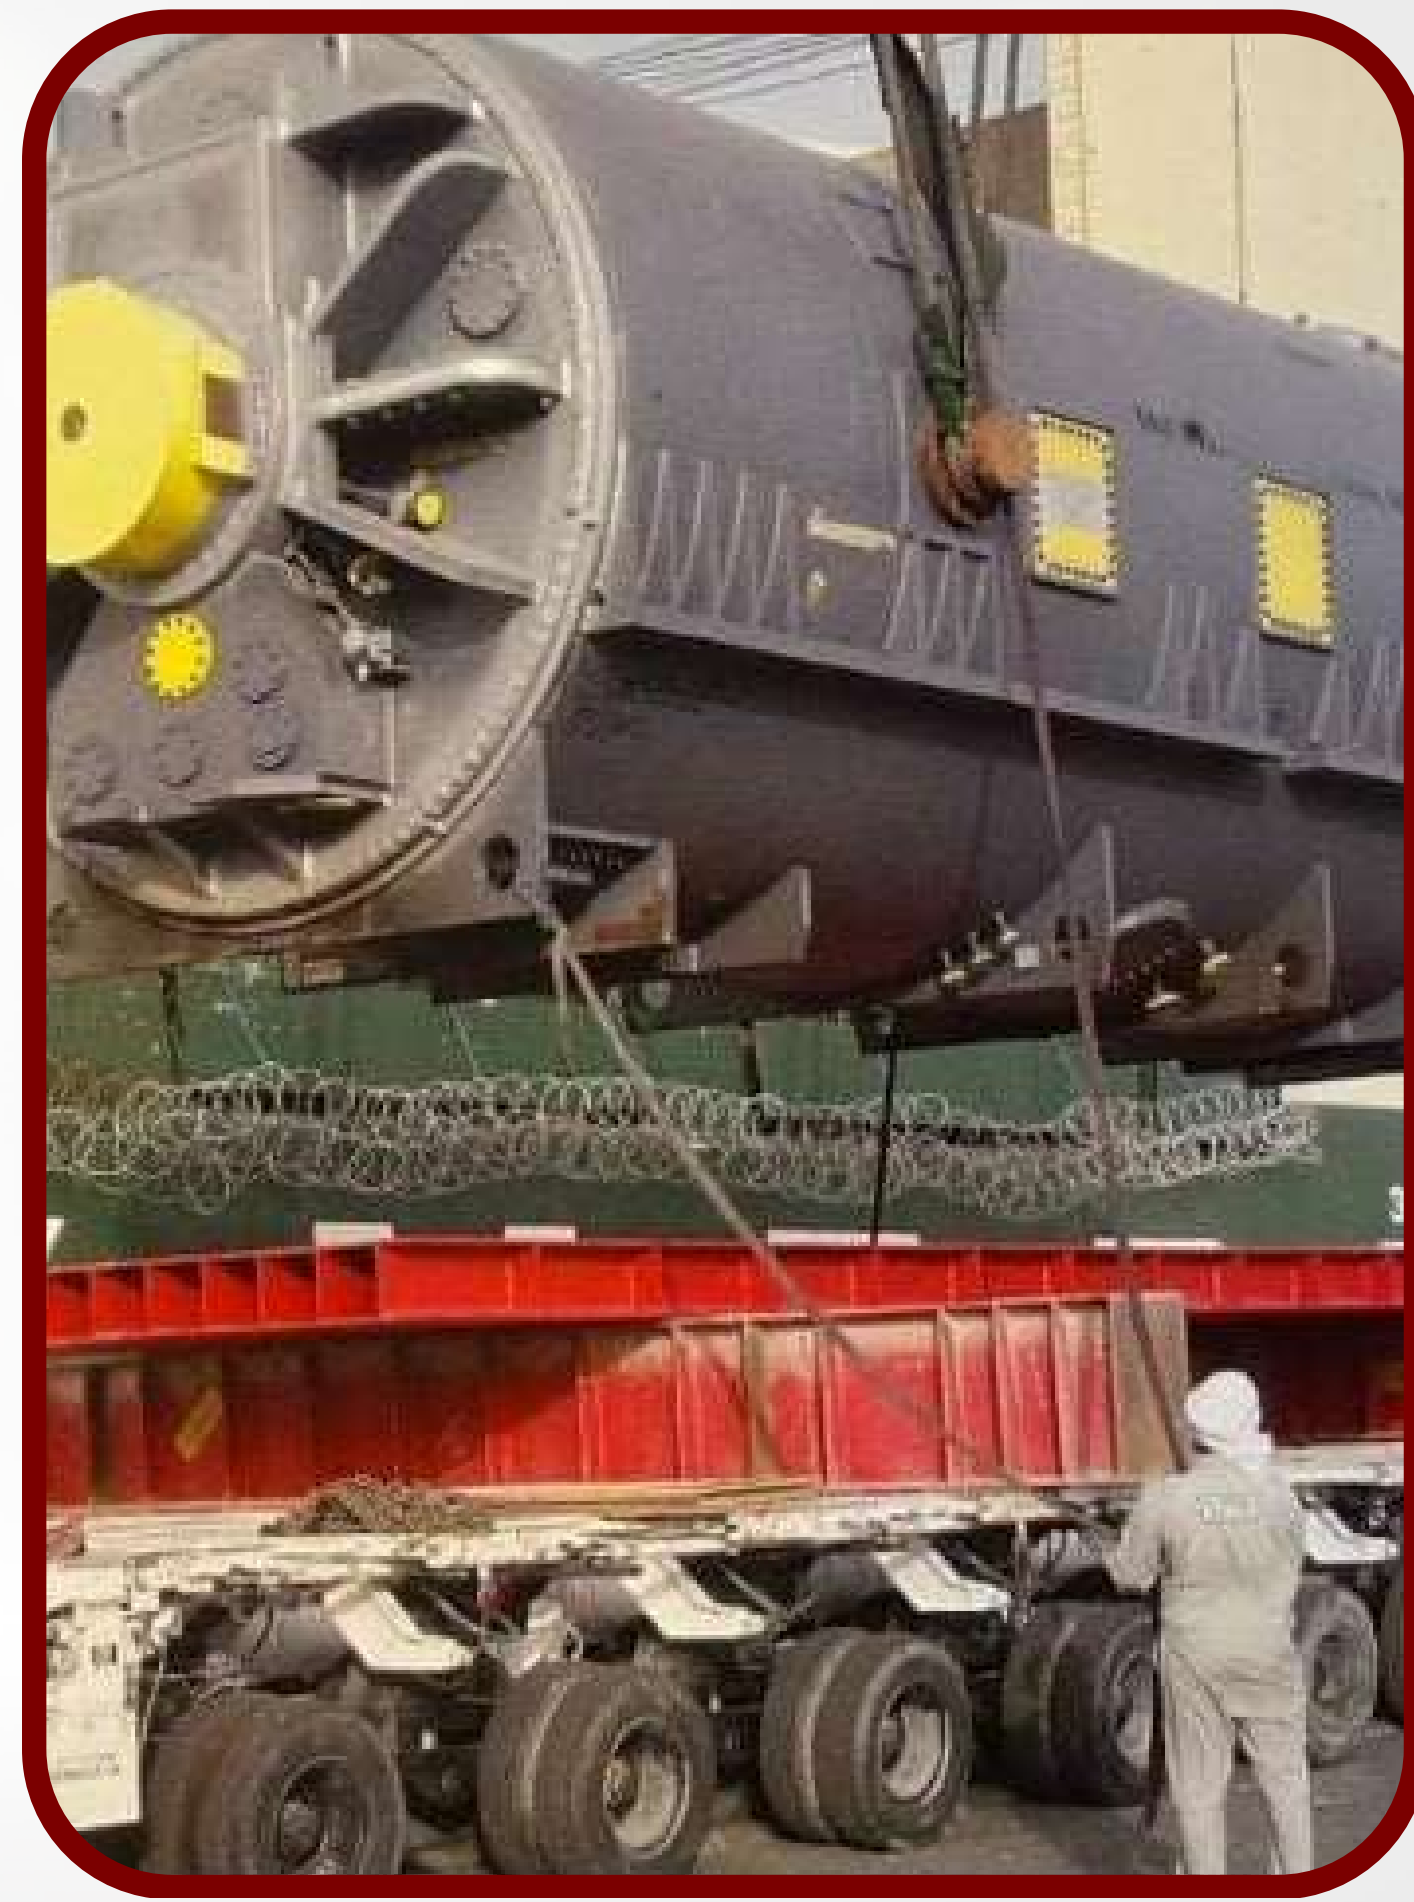

# Our **SERVICE**

- Port handling at both loading and discharge ports
- Inland transportation
- Delivery to final destination
- Transport engineering
- Placement onto foundation
- General cargo
